Why Work With Princeton Blue?

Analyst Recognition

Princeton Blue has been recognized by industry analysts in various industry reports.

Client Referenceability

At Princeton Blue, we measure our success by the success of our clients.

Pre-built Accelerators

Take advantage of our pre-built solutions to accelerate your Intelligent Automation journey using BPM, Low-code, RPA, and AI.

Award-Winning Solutions

Multiple solutions from Princeton Blue have received awards and are recognized as innovative solutions on the Appian AppMarket.

Innovation Lab

Pre-built Accelerators and Solutions built at the Princeton Blue Innovation Lab demonstrate the application of BPM, Low-code, RPA and AI technologies to real-world customer use cases.

Global Delivery

Our distributed teams in the US, Mumbai, and Pune provide the most flexible delivery options for our clients. The most common is a hybrid team that provides the best combination of onsite engagement and the most effective overall cost of ownership.
