Why work with Princeton Blue?

Analyst Recognition

Princeton Blue has been recognized by industry analysts in various industry reports.

Client Referenceability

At Princeton Blue, we measure our success by the success of our clients.

Pre-built Solutions

Take advantage of our pre-built solutions to accelerate your Low-code Process Automation journey using Low-code, BPM and RPA.

Award-winning Solutions

Many solutions from Princeton Blue have received awards and are recognized as innovative solutions on the Appian AppMarket.

Innovation Lab

Leverage our Innovation Lab to kick-start your Low-code Process Automation journey. Build your POCs quickly before you make a financial commitment. Brainstorm with our team of experts and see what works best for you. The Innovation Lab is a very popular service from Princeton Blue and is used by many of our clients.

Global Delivery

Our distributed teams in the US, Mumbai, and Pune provide the most flexible delivery options for our clients. The most common is a hybrid team that provides the best combination of onsite engagement and the most effective overall cost of ownership.
